JUSTINE STERLING DESIGN LLC  
OWNER & PRINCIPAL DESIGNER

As the founding owner and principal designer at Justine Sterling Design, Justine Sterling has a hand in every project that comes through her doors. Setting herself apart from other interior designers since 2008, she is able to take on new construction and renovation projects with an understanding of Interior Architecture as well as the finishes, furnishings and accessories that will complete an individual space. To strive for the least amount of unforeseen complications, Justine has a step by step system for the procurement of goods. Taking her clients from conception to reality with an enjoyable and systemized process is always the goal for her and her team.

As her firm has grown, Justine has continued to enhance her team. "I look for ways to better empower my staff to take on more leadership," she explains. "My passion for Interior Design, especially the business side, only gets stronger as the years go on." Now a part of the global Business of Design BOSS program, Justine and 11 other talented designers get to share their successes while accelerating their growth. "We hold each other accountable"

With her supportive peers and staff, Justine has recently begun working with dream clients on a 5,000 square foot, new construction home including furnishings for their family of five, overlooking the ocean in the South Shore coastal town of Cohasset. Grateful for the confidence her clients place in her, Justine remarks "These clients trust our process and combined vision which allows us to be our most creative."

*AS A LEADER, BE RECEPTIVE  
TO NEW IDEAS THAT INSPIRE  
AND GUIDE YOUR WORK, YOUR  
CLIENTS AND YOUR TEAM.*
